The Marion City Library announces that it has received a 4-Star Rating from the Library Journal. The rating is figured on Circulation, Library Visits, Number of Programs, Attendance, and Internet use based on Library budget and population.

This is the 3rd year that we have received a 4-Star Rating!

We are very proud of this achievement...as all of you should be too.

Without your support, interest and cooperation we could not have achieved this award.

Ratings are given on a 3-5 Star rating, with 5 being the highest.

There were only 12 Libraries in the State of Kansas who received any rating.

We are very proud and grateful for this award. Thank You to everyone for helping us reach this goal.
